# **Explanatory Notes**

# **Data Quality and Methodolodgy**

This publication results from the compilation of data reported monthly in the "Refined Petroleum Products" Survey, covering all refining companies in Canada and major wholesalers/distributors. We would like to thank these respondents for their co-operation in the survey.

The response rate for this survey is 100% and as a consequence no estimation is required and no bias resulting from non-response is introduced in these data.

In order to ensure the accuracy and consistency of these data the results of this survey are reconciled with other Energy section surveys such as the monthly Crude Oil and Natural Gas Production (Cat. 26-006) and the monthly Oil Pipeline Transport (Cat. 55-001) surveys in terms of inter-provincial movements, imports, exports and deliveries to refineries by type of crude and means of delivery.

These reported data allow for a measurement of refining activity in Canada. The supply of crude oil is indicated by source and the volume of other materials charged is also shown. Production of 17 refined products or groups of products is detailed and is measured at a "net yield" level, that is after exchanges between various processes in refinery operations. As a result, inter-products transfers are primarily those transfers needed for marketing purposes. Propane and butanes, shown at the gross level, are the exceptions to the net yield measurement and therefore interproduct transfers for these products are not restricted to marketing transfers, but include movement to gasoline blending, to petrochemicals, etc. Similarly, interproduct transfers for "other products", classification covering unfinished products whose final product form can vary, is not restricted to marketing transfers.

Data on the exports and imports of refined products are those reported by respondents to the survey, adjusted for exports and imports made by non-responding companies. When such adjustments are made, corresponding changes are made to "domestic sales". As a consequence, figures shown for "domestic sales" should accurately reflect total Canadian demand for refined products.

# Renseignements généraux

# Qualité des données et méthodologie

Cette publication est le fruit de la compilation des données obtenues mensuellement de l'enquête des produits pétroliers raffinés (PPR). Celle-ci est effectuée auprès de toutes les raffineries de pétrole au Canada et auprès des principaux grossistes et détaillants de PPR. Nous tenons à remercier toutes les sociétés déclarantes de l'effort qu'elles fournissent chaque mois.

Le taux de réponse est de 100% pour cette enquête et, par conséquent, il n'est pas nécessaire de faire d'estimations, les résultats ne souffrent donc pas du biais qu'entraîneraient des cas de non-réponse.

Afin d'assurer l'exactitude et la cohérence des résultats de cette enquête, nous les avons rapprochés à ceux d'enquêtes connexes de la Section de l'énergie, notamment l'enquête mensuelle sur la production de pétrole brut et de gaz naturel (no 26-006 au catalogue) et l'enquête mensuelle sur le transport du pétrole par pipe-lines (no 55-001 au catalogue), en ce qui a trait aux déplacements interprovinciaux, aux importations, aux exportations et aux livraisons faites aux raffineries selon le type de pétrole brut et le mode de livraison.

Les données contenues dans la publication permettent de mesurer l'activité des raffineries de pétrole. L'approvisionnement en pétrole est montré par source; l'utilisation d'autres charges d'alimentation est aussi indiquée. La production de PPR est détaillée entre 17 produits ou groupes de produits. La production de chaque produit est mesurée d'après le rendement "net" (c'est-à-dire après les échanges entre les diverses unités de raffinage), à l'exception de la production de propane et de butanes où une mesure brute est donnée. Les statistiques sur les échanges inter-produits devraient donc principalement refléter les échanges dus à des raisons de marketing, sauf pour le propane et les butanes, ainsi que pour les "autres produits" car ceux-ci incluent les produits non-finis dont l'utilisation finale peut varier.

Les statistiques sur les exportations et les importations de PPR correspondent aux chiffres déclarés par les répondants auxquels ont été ajoutés les exportations et les importations effectuées par des sociétés non-déclarantes à l'enquête sur les PPR. Quand de tels ajustements sont faits, des modifications sont aussi effectués aux chiffres de ventes intérieures. En conséquence, tout l'approvisionnement en PPR par des compagnies don-declarantes ainsi que toutes exportations effectuées par de telles compagnies sont consideres dans le calcul des ventes interieures; ainsi, ces ventes devraient être représentatives de la demande canadienne totale de PPR.

A quarterly questionnaire, requesting a detailed breakout by consumer categories of the domestic sales figures shown in this publication, is completed by the same companies that report to the monthly "Refined Petroleum Products" survey. The results of this quarterly survey, together with data for all other energy forms, are published in Catalogue #57-003 "Quarterly Report on Energy Supply - Demand in Canada".

The questionnaire used in the monthly refined petroleum products survey is subject to regular revision to reflect changing technologies, etc. The last such change was effected in 1982. Similarly, the list of respondents is constantly updated to ensure a total coverage of refining operations and a sufficiently wide coverage of the wholesalers/distributors of refined products.

The Canadian Socio-Economic Information Management System (CANSIM), which is Statistics Canada's computerized data bank, contains most of the data presented in this publication from 1973; less detailed information is available for the years 1956 to 1972. Please refer to matrixes 626 to 647. Certain summary information is also found on matrix 10.

Les chiffres publiées dans cette publication constituent une bonne partie des statistiques sur la situation pétrolière canadienne. Un questionnaire trimestriel identifiant les utilisateurs finals des PPR est complété par les mêmes sociétés déclarantes. Les résultats de cette enquête sont publiés, de pair avec un résumé des statistiques comprises dans cette publication et d'autres statistiques sur le pétrole et d'autres produits énergétiques, dans la publication "Bulletin trimestriel - disponibilité et écoulement d'énergie au Canada" (catalogue #57-003).

Au cours de son histoire, l'enquête PPR a été modifiée à plusieurs reprises afin de mieux refléter la réalité des industries du raffinage et de la distribution des PPR. Les derniers changements au questionnaire ont été effectués en 1982. La liste des compagnies soumises à la déclaration peut aussi être revisée; ceci afin de garder un taux de couverture complêt sur les activités des raffineries et un taux suffisant sur les activités de distribution des PPR.

Le Système canadien d'information socio-économique (CANSIM), qui est la banque de données informatisées de Statistique Canada, contient presque toutes les statistiques de cette publication à partir de 1973, et sur une base plus réduite pour les données de 1956 à 1972. Prière de consulter les matrices 626 à 647. Certaines informations se trouvent aussi sur la matrice 10.

# **Definitions**

In order to explain the figures appearing in Table 1, we are listing below a set of definitions extracted from the reporting instructions.

## **Refinery Feedstocks**

### Line

- 1,2 Crude and equivalent received. Receipts of crude oil and equivalent hydrocarbons (condensate and pentanes plus) for refinery consumption or storage, credited to the province in which the refinery is located.
- 4,5 **Inventory of crude.** Contents of refinery tankage; excluding pipeline fill.
- 7 Crude oil and equivalents charged. Heavy oil is that with less than 28 API. Synthetic crude oil is that oil extracted from oil sands deposits.
- 8 Other materials charged. Materials from petroleum or other sources which are external to the refinery and which are charged to the refinery as inputs.
- 8A Crude tops. Portion of crude oil input that remains after a first refinery (e.g., asphalt plant) has extracted the desired heavy products and which portion must be transferred to another refinery for further processing.
- 8B Crude bottoms. Portion of crude oil input that remains after a first refinery has extracted the desired light products and which portion must be transferred to another refinery for further processing.
- 8C LPG's. That portion of total liquefied petroleum gas receipts (primarily line 10 for the products propane and butanes) that is charged as a refinery input.
- 8D Natural Gas. Used as a refinery feedstock (exclude any natural gas used for heating or as fuel). Such natural gas should be expressed in cubic metres of heavy fuel oil equivalent.
- 8E Lubes for reprocessing. Lubricating oils and lubricating base stock, etc., to be reprocessed.
- 8F Other feedstocks. Other materials used e.g. additives (lead),etc. Also includes partially refined products from sources external to the refinery.

## **Définitions**

Afin de préciser le sens de données du tableau 1, nous vous proposons ci-dessous une liste de définitions qui s'inspire des instructions sur la préparation du questionnaire.

## Charges d'alimentation des raffineries

## Ligne

- 1,2 Arrivages de pétrole brut et d'équivalents. Arrivages de pétrole brut et d'hydrocarbures équivalents (condensats et pentanes plus) destinés au raffinage ou au stockage, selon la province où se trouve la raffinerie.
- 4,5 **Stocks de brut.** Contenu des réservoirs des raffineries; exclus le contenu des pipe-lines.
- 7 **Pétrole brut et équivalents introduits.** Le pétrole brut lourd est défini comme étant de densité inférieur à 28 API; le pétrole brut synthétique comme étant le pétrole extrait des dépôts de sables bitumineux.
- Autres matières utilisées. Matières d'origine pétolière ou d'autres sources, provenant de l'extérieur de la raffinerie et utilisées comme intrants au raffinage.
- 8A **Produits de la décantation.** Résidu obtenu du pétrole brut introduit dans, par exemple, une raffinerie d'asphalte, après l'extraction des éléments lourds, et qui doit :être transféré à une autre raffinerie pour y subir d'autres traitements.
- Résidus de brut. Résidu obtenu du pétrole brut introduit dans une raffinerie après l'extraction des éléments légers, et qui doit être transféré à une autre raffinerie pour y subir d'autres traitements.
- 8C GPL. La partie du total des arrivages de gaz de pétrole liquefiés (voir principalement la ligne 10 pour les produits propane et butane) qui est utilisée comme intrant au raffinage.
- 8D **Gaz naturel.** Utilisé comme alimention au processus de raffinage (exclure tous les volumes de ce gaz utilisés pour chauffage ou comme carburant). Ce genre de gaz naturel doit être exprimé en mètres cubes comparativement à l'équivalent du mazout lourd.
- 8E Lubrifiants recyclables. Huiles de lubrification, huiles de base, etc., pour le retraitement.
- 8F Autres charges d'alimentation. Autres matieres utilisées telles les additifs (par exemple le plomb), etc Inclus aussi des produits pétroliers partiellement raffines de source externe à la raffinerie.

10 **Refinery losses.** Volumetric gain between refinery input of raw materials and output of finished product, due to the fact that a greater volume of finished product (whose specific gravity is lighter than material input run to stills) is produced.

### **Refined Products**

- 1 **Production.** Measured at a "net yield" level, i.e. after exchanges between refinery processes (see explanatory notes).
- Interproduct transfers. Only those exchanges required, for example, for marketing purposes (see explanatory notes).
- 2A **Of which to Petro-chemicals.** Portion of the inter-product transfers line which is transferred as feedstock to the product "Petro-chemical feedstocks". This is a non-additive line.
- 4 **Transfers to refinery feedstock.** Previously refined products, partially refined products and other materials used which are to be reprocessed through the refinery. Such materials are from sources external to the refinery. This line should equal line 8 of Refinery Feedstocks above.
- 10 From non-reporting companies. Receipts from non-reporting companies (those not included in the list of reporting companies on page 104). All LPG receipts from gas processing plants are shown on this line; such LPG's may be used for refinery charge (see line 4 above) or for gasoline blending, petrochemical feedstocks, etc.
- 11 **From Reporting companies.** Receipts from companies reporting to the survey.
- 12 **To reporting companies.** Deliveries to companies reporting to the survey.

Note: the two previous items cover quantities emanating from sales agreements, processing agreements, exchanges, loans, etc.

- Own consumption. All refined products used in company operations (refining, marketing, etc.).
- Domestic sales. Sales by reporting companies, exclusive of exports and sales to other reporting companies, and adjusted for exports and imports by non-reporting companies (see Explanatory Notes above). This line is the mathematical result of the preceding lines and is derived by adding lines 1, 2, 5, 7, 9 (of preceding month), 10 and 11, and subtracting lines 4, 6, 8, 9, 12, 13 and 14

10 Pertes en raffinerie. Gain volumétrique entre les matières premières introduites et le rendement en produits finis. Les raffineries fabriquent des produits finis d'un volume plus considérable mais d'un poids spécifique moins élevé que ceux des quantités introduites.

#### Produits raffinés:

- Production. Mesurée d'après le rendement "net", c'està-dire après les échanges entre les diverses unités de raffinage (voir les renseignements généraux).
- 2 **Échanges inter-produits.** Seulement les échanges nécessaires, par exemple, pour raisons de marketing (voir les renseignements généraux).
- 2A **Portion pour pétrochimiques.** Partie du poste "échanges inter-produits" qui est transférée comme charges d'alimentation au produit "charges pétrochimiques". Cette ligne n'entre pas dans le calcul des ventes nettes.
- 4 Retour pour alimentation des raffineries. Produits précédemment raffinés, produits partiellement raffinés et autres matières utilisées qui vont être traités de nouveau pour obtenir des produits pétroliers raffinés. Ces matières doivent provenir de sources extérieures à la raffinerie. Cette ligne doit égaler la ligne 8 de la section des charges d'alimentation des raffineries.
- Arrivages des sociétés non-déclarantes. Arrivages en provenance des sociétés non-déclarantes (non-incluses dans la liste des sociétés déclarantes de la page 104). Tous les arrivages de GLP en provenance de usines de traitement du gaz naturel sont montrés à cette ligne; de tels arrivages peuvent être utilisés comme intrants au raffinage (voir la ligne 4 ci-dessus) ou comme mélange pour l'essence, ou comme charges pétrochimiques, etc.
- 11 Arrivages des sociétés déclarantes. Arrivages en provenance des sociétés déclarantes à l'enquête.
- 12 **Expéditions aux sociétés déclarantes.** Expéditions aux sociétés déclarantes à l'enquête.

Nota: les deux postes précédents tiennent compte des accords de ventes, de traitements, d'échanges, de prêts, etc.

- **Auto consommation.** Toutes les quantités de produits pétroliers utilisées dans les opérations des sociétés (raffinage, marketing, etc.).
- 5 Ventes intérieures. Ventes par les sociétés répondantes, excluant les exportations et les ventes aux autres sociétés soumises à la déclaration; comprend aussi les ajustements pour tenir compte des exportations et des importations effectuées par les compagnies non-déclarantes (voir les renseignements generaux). Cette ligne est le resultat mathematique des lignes precédentes et est calculee par l'addition des lignes 1, 2, 5, 7, 9 (du mois precédent), 10 et 11, et la soustraction des lignes 4, 6, 8, 9, 12, 13 et 14.

# 16 For Propane and Butanes only:

**Total export (N.E.B. 145).** Total of the exports as reported on form 145 of the National Energy Board (includes exports from both petroleum refineries and natural gas processing plants).

# 16 Pour propane et butanes seulement:

**Total des exportations (O.N.E. 145).** Total des exportations selon le questionnaire 145 de l'Office national de l'énergie (inclus les exportations des raffineries de pétrole et celles des usines de traitement de gaz naturel).

# How long would it take you to get 10,000 price quotes from 3,500 companies?

A lot longer than it takes to open a copy of **Industry Price Indexes.** Subscribe now, for the most extensive data available on Canadian manufacturing selling prices.

**Industry Price Indexes** are indispensable if you need current, consistent and reliable reports on price fluctuations at the Canadian factory gate. Uses include preparing escalation contracts, inventory management, charting trends, forecasting price changes or compiling data to create your own index.

This monthly publication covers raw materials, energy and over 700 commodities by 20 major groups. Items listed range from fish fillets to industrial furnaces, cattle to crude oil. Most commodities are reported at the national level, but some are given on a regional basis.

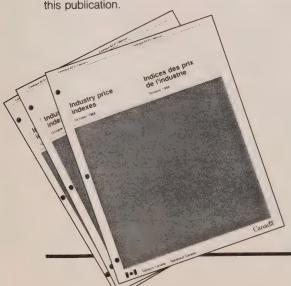

Each issue also provides a historical perspective, with tables of annual averages and monthly price indexes of commodities for the past five years.

As the only periodical of this scope and detail **Industry Price Indexes** is the recognized authority on changes in the selling prices of Canadian manufactured goods.

Get the facts.

A subscription to the monthly **Industry Price Indexes** (Catalogue No. 62-011) is \$182 in Canada, US\$218 in the United States and US\$255 in other countries.

To order, write Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6, or contact the nearest Statistics Canada Regional Reference Centre listed in this publication

# Combien de temps vous faudrait-il pour obtenir 10 000 propositions de prix de 3 500 compagnies ?

eaucoup plus de temps qu'il n'en faut pour lire un exemplaire d'**Indices des prix de l'industrie.** Abonnezvous dès maintenant afin d'avoir accès aux données les plus complètes possible sur les prix de vente des manufacturiers canadiens.

Indices des prix de l'industrie est indispensable si vous avez besoin de rapports à jour, uniformes et fiables au sujet des fluctuations des prix à la production au Canada. Ces indices peuvent servir notamment à préparer des contrats d'indexation, à gérer des stocks, à suivre des tendances au moyen de graphiques, à prévoir des fluctuations de prix ou à compiler des données pour concevoir votre propre indice.

Cette publication mensuelle porte sur les matières premières, l'énergie et plus de 700 produits classés dans 20 grandes catégories. Les articles répertoriés vont des filets de poisson aux fours industriels en passant par les bovins et le pétrole brut. Pour la plupart des produits, les statistiques ont une portée nationale; toutefois, pour certains, elles revêtent un caractère régional.

Chaque numéro donne également une perspective historique; des tableaux indiquent les moyennes annuelles et les indices des prix mensuels des produits au cours des cinq dernières années.

Indices des prix de l'industrie est le seul périodique aussi complet et détaillé. Il fait autorité en ce qui touche les fluctuations des prix de vente des marchandises fabriquées au Canada.

Abonnez-vous!

L'abonnement au mensuel **Indices des prix de l'industrie** (n° 62-011 au catalogue) coûte 182 \$ au Canada, 218 \$ US aux États-Unis et 255 \$ US dans les autres pays.

Pour commander, veuillez écrire à Vente des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6 ou communiquer avec le Centre régional de consultation de Statistique Canada le plus près (voir la liste figurant dans la présente publication).

**EVERY MONTH** 

PUBLIÉES CHAQUE MOIS

Follow the direction and patterns of Canada's trade with 200 countries in over 5,000 commodities. Consult Imports by Commodity (H.S. Based) and Exports by Commodity (H.S. Based).

These publications give current month totals of value and volume of commodities traded and cumulative totals for the year. And with the recent switch to the

"Harmonized System" of commodity coding, international comparisons of trade data are easier because identical products traded internationally are identified by the same code.

Order the publications that manufacturers, international traders, governments, labour and trade associations have come to rely on for up-to-date, comprehensive trade statistics: Imports by Commodity (H.S. Based) and Exports by Commodity (H.S. Based).

Exportations par

Pour connaître les mouvements et la répartition de plus de 5 000 marchandises entre le Canada et 200 pays, consultez *Importations par marchandise (Base du S.H.)* et *Exportations par marchandise (Base du S.H.)*.

Ces publications vous donnent les chiffres de la valeur et du volume des échanges de marchandises du mois et les chiffres cumulatifs pour l'année. Grâce à l'adoption du Système harmonisé de codification des marchandises, il est maintenant plus facile de comparer les données sur le commerce international, car les produits identiques échangés entre les pays sont désignés par le même code.

Procurez-vous les deux publications qu'utilisent les fabricants, les importateurs, les exportateurs, les gouvernements ainsi que les associations ouvrières et commerciales pour obtenir des statistiques récentes et complètes sur le commerce: Importations par marchandise (Base du S.H.) et Exportations par marchandise (Base du S.H.).

Vous pouvez commander en postant le bon de commande ci-joint à:
